Rich and Rich: I hope you can make the next coordination meeting between USDA (NRCS and ARS), EPA and USGS on the Bay and modeling coordination. The meeting will be held July 27th from 8:30 AM until ? (end time not indicated yet, but likely a pretty full day), depending on the agenda.  
We will meet at the Bay office again in Annapolis like last time.

Please let me know who you anticipate coming to this meeting from USGS. We hope you can join us again. The discussion will likely focus on the larger Bay watershed modeling and explore further CEAP and the Bay model, but we anticipate some discussion as well on the smaller watershed work in CEAP, particularly in the Choptank, to further examine model outputs in a well characterized watershed. All agenda items will continue our earlier discussion back in April. Kelly Shenk, Roberta Parry and I will be developing the agenda and sending it out in a week.

If you have any suggestions for the agenda, please send them to me and Kelly. Lee Norfleet from the CEAP Cropland modeling team will be back in town for this meeting to help with the discussion of CEAP modeling for the Chesapeake Bay.

Thanks,  
Lisa

July 27th it is! Bay office like last time. 8:30--until ?

Lisa: Do you want to see if this works with your contacts at USGS and ARS  
If it does not, we will still go ahead with the 27th.

Glenn

Glenn and colleagues-

Apologies for the delay in sharing our available dates--had to track down some folks for their respective schedules! All the key participants from the Bay Program Office are available on July 27, 28 and 29 (after 2PM). If the 28th is not available, we would prefer July 27 as the best day for the meeting.

We are willing to host the meeting in Annapolis with that guaranteed view of the Annapolis harbor or we can travel to another location hosted by our NRCS colleagues, your choice.

Thanks, Rich

Glenn: Just letting you know (since we haven't set a specific date yet  
for our meeting the week of July 26th) that I am now not [likely]  
available on the 28th of July (Wednesday).

I have been invited to speak about CEAP at the Maryland Assoc. of Soil  
Conservation Districts meeting that day in Solomon's Island, though I  
don't know the specific time yet.

Please let me know as soon as you and Rich have a date set for our  
CEAP-Bay modeling meeting so I can block the time on my calendar.

Thank you,  
Lisa
